

# BIODIVERSITY COFFEE CO-OP

---

Each shot is \$0.35. Mark down one tick for each shot of espresso you consume, regardless of the size (each one has the same amount of espresso, just more or less water). 5¢ from each cup is donated to the Nature Trust of BC.

Milk is an extra \$0.15 extra per shot (total \$0.50 per shot).

Tick the “no milk” column if you *do not* want to use the co-op provided milk.

Your account balance is shown, if the number is **bolded**, you owe money!

Bring cash contributions to Rich in room 312.

If your name is not yet on the list, please add it to the bottom.

Email Rich ([fitzjohn@zoology.ubc.ca](mailto:fitzjohn@zoology.ubc.ca)) if there is a problem or we are out of coffee.

- In the last three “months” (30 January to 13 April to 12 June) we consumed 3,302 and 2,188 coffees, 2,941 and 2,078 of which were paid for (89% and 95%).
- Per-person coffee consumption per career stage:
