

Report on the state of the Coffee Co-op

It has been 31 days since our sheet was updated. In that time we drank **1635 coffees**, of which **1622** were marked down; making our honesty during this period **99%**

The distribution of co-op balances:

Among users currently present in the building, **37%** owe the co-op money, representing a total debt of **-414.64**. If we consider all users **EVER** in the co-op, the total debt is **-641.84**.

Please come and pay Andrew MacDonald (203). Let's try to improve these numbers!

milk consumption

we drank 706 milks, which altogether cost us 105.9.
