

Report on the state of the Coffee Co-op

It has been 45 days since our sheet was updated. In that time we drank **1433 coffees**, of which **1288** were marked down; making our honesty during this period **90%**

The distribution of co-op balances:

Among users currently present in the building, **39%** owe the co-op money, representing a total debt of **-518.05**. If we consider all users **EVER** in the co-op, the total debt is **-677.8**.

Please come and pay Andrew MacDonald (203). Let's try to improve these numbers!

milk consumption

we drank 478 milks, which altogether cost us 71.7.
