

Report on the state of the Coffee Co-op

It has been 32 days since our sheet was updated. In that time we drank **1598 coffees**, of which **1459** were marked down; making our honesty during this period **91%**

The distribution of co-op balances:

Among users currently present in the building, **35%** owe the co-op money, representing a total debt of **-370.45**. If we consider all users **EVER** in the co-op, the total debt is **-557.4**.

Please come and pay Andrew MacDonald (203). Let's try to improve these numbers!

milk consumption

we drank 648 milks, which altogether cost us 97.2.
